[illegible]

Table 1 - Packaging Levels

Code	Packaging Level
10	Primary
11	Sub-primary
20	Secondary
30	Tertiary

Description
A packaging element that directly touches the product, for example, bottle, crown cap, yoghurt cup, envelope.
The difference towards the sub-primary level is significant because packaging that touches the product can be subject to a different reporting classification that is subject to a special fee, for example, hazardous packaging.
A packaging that faces consumers but is not in direct contact with the product, for example, a carton around the tube of tooth-paste, a handle, a sleeve, an aid to use the product, or an instruction leaflet if it is regarded as packaging.
A packaging that does not face consumers. This level is often required to differentiate between commercial waste and household waste.
Transport packaging that is meant to shield the product during transport or for stock keeping, for example, pallet, outer carton, shrink wrap, strap band. This level is often required to differentiate between commercial waste and household waste.

Product Type Harmonized

Code	Description
FIN_GOOD	Finished good
NOTAPPL	Not relevant
PACKMAT	Packaging material
RAWMATPACK	Raw material for packaging
SEMIPACKM	Semifinished packaging material

Remark

Product ready to be sold but not packaging. A product that will never become packaging in its entire lifetime.

This value can be used to exclude certain materials or products from reporting, for example, preliminary materials.

Finalized packaging material, ready to be used as packaging, ready to be filled with goods.

Raw material that can be used to produce packaging.

Packaging in an unfinished state, not ready to keep goods. At least one finishing operation is required. For example,

Note: Such an exclusion must be configured for each report separately.

, pre-formed PET bottle, PET resins, or an uncut and unfolded carton layer.

PRODUCT CONTENT

Code	Description
AGRI	Products designed for agricultural or livestock consumption
BEV_ALC	Alcoholic beverages
BEV_OTHER	Other beverages
BEV_SOFT	Soft drinks
BEV_WATER	Potable water
CHEMB2B	Chemicals in a B2B context (for example for industrial or agricultural use)
CLEANING	Cleaning products
CLOTHING	Clothing and apparel
COSM_CARE	Cosmetics and personal care
ELECTRONIC	Electronics
FOOD	Food and nutrition
FOOD_MED	Medical food
FURNITURE	Furniture, furnishings, and household items
GAS	Gas, aerosol
HOME	Home improvement and gardening
NONFOOD	Other non-food
PAINT	Paint
PET	Pet food and animal supplies
PHARMA	Pharmaceutical and medical goods for human medicine
SANI_WASTE	Intended to capture hazardous sanitary waste
TOBACCO	Tobacco
TOYS	Toys
VET_PHARMA	Veterinary pharmaceutical products
BEV_ALC_BE	Beer and nonalcoholic beer
MED_DEVICE	
NONFOOD	Other non-food
FOOD_DIR	Food for direct consumption
FOOD_MED	Medical food
